CONTENTS OF VOLUME 27

No. 1, January, 1977

Kazuo TERASHIMA, Yutaka IMAI, Takeshi KASAJIMA, Rikiya TSUNODA, Kiyoshi TAKAHASHI, and Mizu KOJIMA: An Ultrastructural Study on Antibody Production of the Lymph Nodes of Rats with Special Reference to the Role of Germinal Centers ..... 1~ 24

Iwao NAKAYAMA, Akira MORIUCHI, Yoshitsugi TAIRA, Osamu TAKAHARA, Takashi ITOGA, and Nobuo TSUDA: Fine Structural Study of Annulate Lamellae Complexes in Human Tumors ..... 25~ 39

Kennichi KAKUDO: Experimental Rat Choriocarcinoma — An Electron Microscopic Study — ..... 41~ 50

Tadaatsu AKAGI and Tetsuo KIMOTO: Establishment and Characteristics of a Human Pancreatic Cancer Cell Line (HGC-25) ..... 51~ 58

Hiroshi ITOH, Kyoichi OGAWA, Akira TORIYAMA, Ken KIMURA, Wong Ki CHONG, and Hisashi MITO: Pulmonary Changes in Congential Heart Disease of Childhood — Histometrical and Histological Studies — ..... 59~ 74

Gen ITOH: Elektronenmikroskopsiche und Elektronenmikroskopischhistochemische Untersuchungen über Nebennierenrinde der Ratte mit Aminoglutäthimid (Elipten, Ciba) und über ihren Reparaturprozess ..... 75~ 91

Atsuo MIKATA, Hisami IRI, and Yukio INUYAMA: Mesenchymal Chondrosarcoma — A Case Report with an Ultrastructural Study and Review of Japanese Literatures ..... 93~109

Hiroshi TOYODA, Yukihiro KAWAGUCHI, Kenjiro SHIRASAWA, and Akira MURAMATSU: Familial Medullary Carcinoma of the Thyroid Through 3 Generations .....111~121

Kinya HAYAKAWA, Masayoshi TAKAHASHI, Ken-ichi SASAKI, Akira KAWAOI, Tadao OKANO, Hiroshi OSADA, Toshimichi OTSUKA, and Yoshihiro MUROTA: Primary Choriocarcinoma of the Lung — Case Report of Two Male Subjects — .....123~135

Takashi HAYATA and Eiichi SATO: Primary Leiomyosarcoma Arising in the Trunk of Pulmonary Artery — A Case Report and Review of Literature — .....137~144

No. 2, March, 1977

Takahiro HIRANO, Hiroaki MIYAJIMA, Kyo KAZIWARA, and Tasuku WATANABE: Pathology of Neoplasms and Other Lesions Induced in Rats with Moloney Murine Sarcoma Virus .....145~164

Mitsuo BABA, Takayuki HARADA, and Shigeru MORIKAWA: Studies on Delayed Hypersensitivity in Mice. I. Physicochemical and Biological Properties of

Preferential Antigens for Inducing Delayed Hypersensitivity in Mice .....165~183
Masayoshi Sugai, Rin Kono, Yoshiyuki Nakahara, Yukie Kunita, and Seiichi Tanaka: Morphological Observation of Idiopathic Cardiomyopathy Consisting of 9 Cases Encountered in Sudden and Unexpected Death .....185~195
Kazutoshi Shibata and Makoto Enomoto: Development of Myogenic Sarcomas in Mice at the Site of Injection of 4-HAQO—A Study on the Morphogenesis of Tumor .....197~212
Kichihei Miyasaki, Yutaka Ooiso, Isao Nakamura, Munetada Oimomi, Tadashi Tai, and Kunihiko Saito: An Unusual Case which Began with Subcutaneous Panniculitis Followed by Fever, Severe Hepatic Involvement and Hyperlipidemia .....213~224
Akira Tanimura, Itsuro Hayashi, Kyo Adachi, Teruyuki Nakashima, Katsutoshi Ota, and Hidenori Toshima: Noonan Syndrome with Hypertrophic Obstructive Cardiomyopathy .....225~230
Toru Hirano, Hideo Tsuchiyama, Kioko Kawai, and Kazutake Mori: An Autopsy Case of Creutzfeldt-Jakob Disease with Kuru-Like Neuropathological Changes .....231~238
Takehiko Miyashita, Akitsugu Ojima, Takashi Tuji, Tsuneo Tajima, and Kunitomo Watanabe: Varied Pulmonary Lesions with Intraalveolar Large Lamellar Bodies in an Autopsy Case with Busulfan Therapy .....239~249
Kazuo Nagashima, Koko Sakakibara, Hisako Endo, Yumiko Konishi, Norimasa Nakamura, Yoshiyuki Suzuki, and Toshiaki Abe: I-Cell Disease (Mucolipidosis II). Pathological and Biochemical Studies of an Autopsy Case .....251~264
Akira Kawaoi, Tadao Okano, and Toshikazu Uchida: Immunohistological Study on the ACTH Producing Islet Cell Carcinoma of the Pancreas .....265~273
Kiyoko Saito, Fumitomo Koizumi, and Yuichi Sumiyoshi: Viral Placentitis —A Case Report— .....275~282

No. 3, May, 1977

Toshio Morohoshi: Enlargement of Hemodialyzed Spleen in Uremia — Histopathological and Biometrical Studies Compared with the Kidney ..283~295
Toshio Shikata, Shigeyuki Yamazaki, and Teruko Uzawa: Hepatocellular Carcinoma and Chronic Persistent Hepatitis. .....297~304
Yasuhiro Sakai: Experimental Studies on the Role of Satellite Cells in Regeneration of Rat Skeletal Muscle Fibers. .....305~320
Fumitoshi Chino: Character of the Tumors Developing in Young Hamsters by the Mixed Cell Transplantation of PARA-adenovirus 12 and SV40 Tumors — The Similarity to the Tumors Induced by PARA-adenovirus 7. .....321~329
Masakuni Furusato: Ultrastructure and Histochemistry of the Medullary Interstitial Matrix of Rat Kidney. .....331~344

Kenichi HARIGAYA: Enzyme Histochemical Characteristics of Non-Hodgkin's Lymphomas .....345~358
Tokichi YUMOTO and Shiko OKAMOTO: Transplantable Lymphoma Producing Type K Bence Jones Protein in NZB Mouse .....359~373
Hiroshi KANEKO, Haruto HŌJŌ, Shinobu ISHIKAWA, and MICHIO KIKUCHI: Bronchial Carcinoid Accompanied by Thyroid Adenomas and Adrenal Adenomas .....375~385
Shosuke MORIWAKI, Shigemitsu TAKASHIMA, Hiroki YOSHIDA, Noboru KAWANO, Machiko GOTO, Masahide MIYAO, and Takayuki YANAGAKI: Histological Observation of the Brain of Tay-Sachs Disease with Seizure and Chronic DPH Intoxication — Report of an Autopsy Case — .....387~407
Yoshio HASHIZUME: Fünf erwachsene Fälle der von der Ependymitis granularis erregten Aqueductsstenose .....409~419
Hisako ENDO, Sadi F. AL-SAMARRAI, Kouko SAKAKIBARA, Kazuo NAGASHIMA, and Yukihiko SHIMADA: A New Type of Mucolipidosis Associated with Hereditary Thrombocytopathy and Color Blindness .....421~434

No. 4, July, 1977

Hiroki KAJIHARA, Kenjiro YOKORO, Soichi IIJIMA, Takaaki MOCHIZUKI, and Kazumi TAGUCHI: Ultrastructural Changes of the Dog Myocardium in Extracorporeal Circulation .....435~445
Kiyoshi TAKAHASHI, Hando HAKOZAKI, Kazuo TERASHIMA, and Mizu KOJIMA: Two Distinctive Types of Lpid Histiocytes Appearing in the Spleen of Idiopathic Thrombocytopenic Purpura — Sea-Blue Histiocyte and Foam Cell — .....447~462
Makoto MOTOI, Hiroyuki OHMORI, and Katuso OGAWA: The Relationship Between Age-Dpendent Immunological Competence of Host and Tumor Growth in the Hamster-Bovine Adenovirus Type 3 System .....463~476
Hajime SUGIHARA, Kioko KAWAI, and Hideo TSUCHIYAMA: Effects of Exogenous ACTH on the Rat Fetal Adrenal Cortex — A Histochemical and Electronmicroscopical Observation .....477~484
Kotto KITANO, Hiroshi IWASAKI, and Munetomo ENJOJI: Proliferative Fasciitis — A Variant of Nodular Fasciitis — .....485~493
R. Yoshiyuki OSAMURA: Functional Prenetal Development of Anencephalic and Normal Anterior Pituitary Glands — In Human and Experimental Animals Studied by Peroxidase-Labeled Antibody Method — .....495~509
Hajimu HATANI: Angiographic, Histometric and Histopathological Studies on the Intramural Coronary Arteries in the Infarcted Heart .....511~526
Katsumaro KURUMADO and Wataru MORI: A Morphological Study on the Pineal Gland of Human Embryo .....527~531
R. Yoshiyuki OSAMURA, Keiichi WATANABE, Keihachi YONEYAMA, and Toru HAYASHI: Glomus Tumor of the Stomach — Light and Electron Micro-

scopic Study with Literature Review of Related Tumors— .....533~539
Chikao Torikata, Kohichi Ishiwata, and Shimao Fukai: Malignant Change in a Solitary Hamartoma of the Lung — A Case Report .....541~546
Rikuo Machinami and Toyohiko Morita: Immunoelectron Microscopy of Surface Immunoglobulins in Pseudolymphoma of the Lung — Report of a Case .....547~556
Tadaaki Eimoto and Keisuke Hashimoto: Vacuolated Meningioma — A Light and Electron Microscopic Study — .....557~566
Hiroyuki Ohmori, Makoto Motoi, Hiromichi Sato, Akira Tsutsumi, Katsuo Ogawa, Hisako Fujiwara, Yoshiaki Kageyama, Hisamitsu Yokoyama, and Takeo Toshinouchi: Extrarenal Renin-Secreting Tumor Associated with Hypertension .....567~586

No. 5, September, 1977

Isamu Sakurai: Pathology of Acute Ischemic Myocardium — Special References to (I) Evaluation of Morphological Methods for Detection of Early Myocardial Infarcts, and (II) Lipid Metabolism in Infarcted Myocardium .....587~603
Kennichi Kakudo, Akira Miyauchi, and Shoichi Katayama: Ultrastructural Study of Thyroid Medullary Carcinoma .....605~622
Shinji Koizuka: Histological Studies on the Effect of ACTH and Flavin Adenine Dinucleotide on the Rat Adrenal Cortex Atrophied by Hypophysectomy. .....623~635
Shinji Koizuka: Electron Microscopic Studies on the Effect of ACTH and Flavin Adenine Dinucleotide on Adrenocortical Atrophy of Hypophysectomized Rat .....637~645
Masaya Ida: Enzyme Histochemical Study on Hepatoma — The Relation Between Enzyme Activity and Histological Type .....647~655
Hironobu Adachi: Pathological Study on Experimental Heinz Body Anemia — Intracellular Changes of Phagocytized Red Cells in Macrophages of the Spleen and Liver .....657~675
Futoshi Matsubara: Morphological Study of the Paneth Cell — Paneth Cells in Intestinal Metaplasia of the Stomach and Duodenum of Man. .....677~695
Shinobu Ishikawa: Differentiation of Human Neuroblastoma Cells in Vitro — Morphological Changes Induced by Dibutyryl Cyclic AMP .....697~711
Masanobu Satoh, Hajime Fukazawa, Kanichi Yagawa, Hayato Endo, Atsumi Suzuki, Toru Yanagisawa, and Makoto Kojima: Two Cases of Nevoid Basal Cell Carcinoma Syndrome.....713~727
Yasuo Tokoro, Shang Chang, Tatsuo Nagai, and Ikuo Ishiyama: Immunohistological Analysis of Intravascular Agglutination in a Case of ABO Incompatible Blood Transfusion by Means of Mixed Cell Agglutination Reaction .....729~738

Akio KUROKAWA, Yuro SHIBAYAMA, Katsuji NAKATA, Hiroshi KAITO, Kiyoyuki TAKAHASHI, and Osamu MIDORIKAWA: Sipple's Syndrome with Peculair Changes in Pancreatic Islets — An Autopsy Case — ....739~748
Akira MORIUCHI, Iwao NAKAYAMA, Hiroo MUTA, Yoshitsugi TAIRA, Osamu TAKAHARA, and Shigeo YOKOYAMA: Gastric Teratoma of Children — A Case Report with Review of the Literature .....749~758

No. 6, November, 1977

Hajime SUGIHARA: Differentiation of the Fetal Adrenal Cortex of Rats — Its Experimental Observation *In Vivo* .....759~773
Kiyoshi TAKAHASHI, Kazuo TERASHIMA, Mizu KOJIMA, Hiroshi YOSHIDA, and Hideo KIMURA: Pathological, Histochemical and Ultrastructural Studies on Sea-Blue Histiocytes and Gaucher-Like Cells in Acquired Lipidosis Occurring in Leukemia .....775~797
Hiromitsu WATANABE, Fumio HIROSE, Shoichi TAKIZAWA, and YORITAKA TERADA: Induction of Atrophic Gastritis in ICR Mice by the Administration of an Allogenic Antigen .....799~808
Mutsuo TAKAHASHI: Pathological Study on Amyloidosis — Scanning Electron Microscopic Observation of Amyloid-Laden Mouse Liver.....809~822
Hidenobu WATANABE, Munetomo ENJOJI, Tsuneyoshi YAO, Mitsuo IIDA, and Keiichi OSATO: Accompanying Gastro-Enteric Lesions in Familial Adenomatosis Coli .....823~839
Akira KAWAOI, Toshikazu UCHIDA, and Tadao OKANO: Transmission and Scanning Electron Microscopic Observations of Mouse Adrenocortical Adenoma Cells (Y-1) in Non-Stimulated and Stimulated States ....841~856
Masaru YOSHINAGA, Shuji NAKAMURA, and Shigenori HIGUCHI: Enhancement of Phytohemagglutinin-Induced DNA Synthesis of Mouse Thymocytes and T-Lymphocytes by a Neutral Protease of Polymorphonuclear Leukocytes .....857~868
Hiromitsu WATANABE, Fumio HIROSE, Shoichi TAKIZAWA, Yoritaka TERADA, and Isao FUJII: Morphological and Biochemical Changes in the Gastric Mucosa of A/HeJ Mice Injected with a Xenogeneic Stomach Antigen ..869~876
Motohiko AIBA: Correlation of Alkaline Phosphatase Staining of Cortisol-Producing Adrenocortical Tumors with Dexamethasone Suppressibility and ACTH Stimulation .....877~891
Kichihei MIYASAKI, Shinichi MURANO, Kazushige NAKAMURA, and Michihiko OAKAMOTO: Arhinencephaly (Holoprosencephaly) Associated-with External Hydrocephaly .....893~905
Akio HORIE, Kosei YASUMOTO, Hidehiko UEDA, Yukio WATANABE, Yasunori KOTOO, and Yukio KURITA: Clear Cell Adenocarcinoma of the Uterus — Ultrastructural and Hormonal Study .....907~915
Tadashi SATO, Kiyoshi TAKAHASHI, and Mizu KOJIMA: Sclerema Neonatorum

Associated with Systemic Fibrosis and Endocardial Fibroelastosis .....917～925
Toshio TANAKA, Akira NISHIMOTO, Akihiro DOI, Seigo NAGAO, Mineharu HUJITA, Tatsuo SEZAKI, and Tokichi YUMOTO: Primary Intracranial Malignant Lymphomas with Particular Reference to their Pathogenesis ..927～940
